

# AEGIS

**L7 LEDERA**

**AVnews** 2023  
AWARDS

WINNER

**INDUSTRY FIRST,  
HIGH BRIGHT, FINE  
PITCH FLIP CHIP KIOSK.**

**A BRIGHTER, GREENER TECHNOLOGY**

## Designed for indoor or outdoor use.

Due to its fine pixel pitch the Aegis can be used to target audiences near and far.

## Built in CMS.

The Aegis supports multiple cross-regional networking methods to efficiently achieve intelligent cloud management functions, like remote monitoring, and content distribution.

Third party support is also optional. Whether it's Scala or BrightSign we've got you covered.

## Super wide viewing angle.

With 170 degree viewing angles, deliver greater impact across a wider audience.

## Gorilla Glass. Tougher and safer than any ordinary glass.

4x stronger than normal glass.

## Versatility.

Pixel pitches that have you covered:  
P1.2, 1.5, 1.6, 1.9, 2.0, 2.5, 3.1

Up to  
**4,000 nits**   
peak brightness for your  
HDR photos and videos

Up to  
**40%**   
energy saving  
vs LCD\*

**10000:1**   
high contrast ratio

**22 bit+**   
high grayscale

**3840Hz**   
high refresh rate

**IP65** 

\* for more information on this please contact us for more details.

**L7 LEDERA**

### **57" / 67" / 77" / 81" / 85" LED display**

With incredible detail and vivid colours, the stunning Aegis Series display is perfect for any out of home ad campaign from bus shelters to mall kiosks.

### **Android system**

Built-in latest android system, so that it has richer functional applications, and it is more convenient and quick to use.

### **Sleek, strong, and durable design**

The Aegis is built to be durable so you have peace of mind knowing that it can handle any weather condition.

### **High brightness**

Up to 4000 nits of brightness. An astonishing 10,000:1 contrast ratio and super wide viewing angle. Over a billion colours presented with exceptional accuracy and dynamic range that transforms the out of home landscape.

### **Double sided – Twice the impact**

The Aegis Series is also available in double sided options maximising its visual impact.

### **Super fast servicing**

Unlike LCD, if a module becomes faulty only a small section of the screen needs removing and replacing, a process that takes seconds.

## **Quick and easy servicing.**

Quickly and effortlessly swap modules in seconds rather than replace the entire LCD display.

Less down time and more advertising.
